DETAILED ACTION

Status of the Application

1. Claims 43, 45-47, 50-66, 68, 70-72, 75-91, 93-95, 99-101, 103, 104, 106-108, 110-116 and 121-123 have been examined in this application. The Information Disclosure Statements IDS statement filed on February 2, 2005 and August 19, 2005 have been acknowledged.

Claim Rejections - 35 USC § 103

- 2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 3. Claims 43, 45-47, 50-66, 68, 70-72, 75-91, 93-95, 99-101, 103, 104, 106-108, 110-116 and 121-123 are rejected under 35 U.S.C. 103(a) as being unpatentable over Silverman in view of Hartheimer, Bantz and US Patent Number 4,858, 112 to Puerzer.
- (A) As per claims 43, 46, 51, 53, 62, 65, 68, 71, 76, 79, 87, 90, 93, 94, 99, 100, 103, 104, 106, and 112, the rejection of these claims over Silverman, Hartheimer and Bantz was set forth in the Office Action dated December 29, 2003.

These claims have been amended to recite that the workstations communicate with each by using data messages. Silverman, Hartheimer and Bantz do not teach that the workstations communicate which each other using data messages, however, this feature is well known in the art as evidenced by Puerzer (Figure 2 and Col. 6, Ln. 1-11). At the time of the invention, it would have been obvious for one of ordinary skill in the art to have modified the combined method/system/device of Silverman, Hartheimer and Bantz with the aforementioned teachings

٠,

teachings from Puerzer with the motivation of enhancing the speed at which data was accepted and acknowledged, as recited in Puerzer (Col. 4, Ln. 15-27).

(B) As per claims 45, 47, 50, 52, 54-61, 63-64, 66, 70, 72-75, 77-78, 80-86, 88-89, 91, 95, 101, 107-108, 110-111, 113-116 and 121-123 have not been amended and are, therefore, rejected on the same basis as set forth in the Office Action dated December 29, 2003.

Response to Arguments

4. Applicant's arguments with respect to claims 43, 45-47, 50-66, 68, 70-72, 75-91, 93-95, 99-101, 103, 104, 106-108, 110-116 and 121-123 have been considered but are moot in view of the new ground of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
